

Selected scientific papers detailing the relationship between nature, green infrastructure, gardens and human health and wellbeing

This is far from a complete list, and we would be most grateful if readers could send details of additional papers which should be included.

- Agustina, I., & Beilin, R. (2012). Community Gardens: Space for Interactions and Adaptations. *Procedia - Social and Behavioral Sciences*, 36(0), 439-448.
