

Wildlife Gardening Forum

List of scientific papers and published articles on human health and well-being, green space and gardens

Compiled by Marc Carlton and Steve Head

This list is not exhaustive, and of course will need constant updating. We hope people will still find it useful, especially with the doi.org links taking you direct to those publications accessible from the web. Please let us know of other publications that you consider should be on this list

Adevi, A. A., and Lieberg, M. (2012). Stress rehabilitation through garden therapy: A caregiver perspective on factors considered most essential to the recovery process. *Urban Forestry & Urban Greening*, Vol. 11, Issue 1: 51-58. <https://doi.org/10.1016/j.ufug.2011.09.007>

Agustina, I., & Beilin, R. (2012). Community Gardens: Space for Interactions and Adaptations. *Procedia - Social and Behavioral Sciences*, Vol. 36, 439-448. <https://doi.org/10.1016/j.sbspro.2012.03.048>

Alaimo, K., Packnett, E., Miles, R. A., & Kruger, D. J. (2008). Fruit and vegetable intake among urban community gardeners. *Journal of Nutrition Education and Behavior*, 40(2), 94-101. <https://doi.org/10.1016/j.jneb.2006.12.003>

Alaimo, K., Reischl, T. M., & Allen, J. O. (2010). Community gardening, neighborhood meetings, and social capital. *Journal of Community Psychology*, 38(4), 497-514. <https://doi.org/10.1002/jcop.20378>

Alcock, I., et al. (2014). Longitudinal Effects on Mental Health of Moving to Greener and Less Green Urban Areas. *Environmental Science & Technology* 48 (2), 1247-1255. <https://doi.org/10.1021/es403688w>

Alcock, I., White, M. P., Wheeler, B. W., Fleming, L. E., Depledge, M.E. (2014) Longitudinal Effects on Mental Health of Moving to Greener and Less Green Urban Areas. *Environmental Science & Technology* 2014 48 (2), 1247-1255. <https://doi.org/10.1021/es403688w>

Armstrong, D. (2000). A survey of community gardens in upstate New York: Implications for health promotion and community development. *Health & Place*, 6(4), 319-327. [https://doi.org/10.1016/S1353-8292\(00\)00013-7](https://doi.org/10.1016/S1353-8292(00)00013-7)

Arnberger, A., and Eder, R. (2012). The influence of green space on community attachment of urban and suburban residents. *Urban Forestry & Urban Greening*, Vol. 11, Issue 1: 41-49.
<https://doi.org/10.1016/j.ufug.2011.11.003>

Austin, E. N., Johnston, Y. A. M., & Morgan, L. L. (2006). Community Gardening in a Senior Center: A Therapeutic Intervention to Improve the Health of Older Adults. *Therapeutic Recreation Journal* 40(1). <https://js.sagamorepub.com/trj/article/view/965>

Barton, J. and Pretty, J. 2010. What is the Best Dose of Nature and Green Exercise for Improving Mental Health? A Multi-Study Analysis. *Environmental Science and Technology*, Vol. 44, Issue 10: 3947–3955. <https://doi.org/10.1021/es903183r>

Belaire, J. A., et al. (2015). Urban residents' perceptions of birds in the neighborhood: biodiversity, cultural ecosystem services, and disservices. *Condor*, Vol. 117.
<https://doi.org/10.1650/CONDOR-14-128.1>

Bell, J.F. Wilson, J.S., and Liu, G.C. (2008). Neighborhood Greenness and 2-Year Changes in Body Mass Index of Children and Youth. *Am J Prev Med*, Volume 35, Issue 6: 547–553.
<http://dx.doi.org/10.1016/j.amepre.2008.07.006>

Bendt, P., Barthel, S., & Colding, J. (2013). Civic greening and environmental learning in public-access community gardens in Berlin. *Landscape and Urban Planning*, vol. 109(1), 18-30.
<https://doi.org/10.1016/j.landurbplan.2012.10.003>

Bowler, D., Buyung-Ali, L., Knight, T., & Pullin, A. (2010). A systematic review of evidence for the added benefits to health of exposure to natural environments. *BMC Public Health*, 10(1), 456.
<http://dx.doi.org/10.1186/1471-2458-10-456>

Bratman, G. N., Hamilton, J. P., Hahn, K. S., Daily, G. C. & Gross, J. J. (2015). Nature experience reduces rumination and subgenual prefrontal cortex activation. *Proc. Natl. Acad. Sci. USA*, 112 (28).
